## Fire Prevention and Fire Insurance Go Hand In Hand

Today, we have with us the South Carolina Fire Prevention Association; an organization of Special Insurance Agents and other business men of the state who are vitally interested in the prevention of fires.

These Special Agents will, today, call on the merchants and other business men of the city, inspect their property, and suggest ways and means of reducing the hazard of fire wherever possible.

It is a well known fact that when a fire occurs, even though the loss be entirely covered by insurance, some one loses. Real property that formerly existed which was wiped out by fire cannot possibly be replaced immediately by the insurance—hence the loss to the individual, community, or the state. As these gentlemen are our guests for the day, and incidentally doing us all a great favor, let's all combine to assist them in every way possible.

## "D O N ' T S"

By Chief Jackson, of the Anderson Fire Department.

1. Don't go into closet with a lighted match for clothing.
2. Don't kindle fires in stoves with kerosene.
3. Don't put out ashes and coal in wooden barrels or boxes.
4. Don't allow waste paper, excelsior and rubbish to collect.
5. Don't look for gas leaks with a match or lamp.
6. Don't have lace curtains near gas brackets.
7. Don't allow oily rags to be near stoves or about the premises.
8. Don't allow sawdust to be used in cuspidors or floors.
9. Don't throw waste paper on a fire in a fireplace.
10. Don't keep matches in paper boxes or lying around.
11. Don't forget that matches are the beginning of many conflagrations.
12. Don't hang your clothing near open fires or stoves.
13. Don't fill lamps after dark, and never when lighted.
14. Don't allow rubbish to remain in hallways or on fire escapes.
15. Don't burn leaves and dead grass on windy days.
16. Don't forget to have the chimneys of your house cleaned each year.
17. Don't forget to look twice at everything that looks like fire.
18. Don't leave everything to the landlord; inspect your own building.
19. Don't fail to give the firemen every opportunity to make careful examination of your property. They are trying to help you.
20. Don't use gasoline for cleaning in a closed room.
21. Don't spill gasoline.
22. Don't fill the tank of your stove full.
23. Don't use a reservoir of more than two gallons capacity.
24. Don't use a stove that leaks.
25. Don't fill the reservoir of stoves near a lighted lamp.
26. Don't strike matches to see how to fill the reservoir or whether it is too full or not.
27. Don't use a small gasoline stove until it is fastened down.
28. Don't use a leaky funnel in filling.
29. Don't fill a gasoline stove in a closed room. Have plenty of ventilation to carry away the vapor and out of the room. Be aware of leaks and never forget how dangerous a material gasoline is.
30. Don't clean clothes with gasoline in a room in which there is an open flame, such as in kerosene lamps, grates, gas stoves, etc.
31. The kitchen flue is used 1095 times a year, or thereabouts. Don't you think it ought to be the best flue in the house? Build it from the ground, and lay the brick flat. See that the contractor gives you an honest job.
32. If you use grates, do not pile them with coals and then leave the room. Coals are as prone to fall as sparks to fly upward.
33. The kitchen range should have a large sheet of metal beneath it.
34. Have the electric wiring in your house inspected every two or three years.
35. Do not permit workmen to use gasoline fire-pots in karning off paint.
36. Do not fill coal oil or gasoline stoves while they are burning, near an artificial light.
37. When the home is left for an hour, a day, or a week, without someone to look after it, particular care should be exercised for the purpose of seeing that fires in grates or stoves are put out, and that all doors and windows are properly closed and locked.

## In Addition

To the usual coverage against fire and explosion of your automobile I can protect you against Liability for damage to persons or property, or against damage to your car by collision.

A liberal coverage for a reasonable premium—Inquire for Rates.
